

REMARKS

The claims have been amended to delete multiple dependencies.

Entry of the above amendments is earnestly solicited. An early and favorable first action on the merits is earnestly solicited.

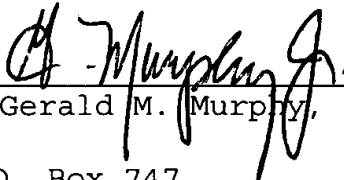

Attached hereto is a marked-up version of the changes made to the application by this Amendment.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Gerald M. Murphy, Jr., (Reg. #28,977) at the telephone number of the undersigned below.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17; particularly, extension of time fees.

Respectfully submitted,

BIRCH, STEWART, KOLASCH & BIRCH, LLP

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS:

The claims have been amended as follows:

13. (Amended) A chemical compound according to [any of claims 1-12] claim 1, for use as a medicament.

14. (Amended) The use of a chemical compound according to [any of claims 1-12] claim 1 for the manufacture of a medicament for the treatment, prevention or alleviation of a disease or a disorder or a condition of a mammal, including a human, which disease, disorder or condition is associated with the activity of potassium channels.

16. (Amended) A pharmaceutical composition comprising a therapeutically-effective amount of a chemical compound according to [any of claims 1-12] claim 1, or a pharmaceutically-acceptable addition salt thereof, together with at least one pharmaceutically-acceptable carrier or diluent.

17. (Amended) A method of treatment, prevention or alleviation of a disease or a disorder or a condition of a living animal body, including a human, which disease, disorder or condition is responsive to blockade of the potassium channel, and which method comprises administering to such a living animal body, including a human, in need thereof a therapeutically-effective amount of a compound of [any of claims 1-12] claim 1.
